DuPont Research Associate to Address Local Home Builders, Architects and Students

WHAT: The Home Builders Association of the Sioux Empire (HBASE) will host Tony Zatkulak, a DuPont Research Associate who will be presenting a two-part seminar to local home builders, architects and students. Mr. Zatkulak first seminar will cover Advanced Roofing Technology: The Sealed Attic System. His second seminar will be on Managing Radiant Heat in Buildings.

WHEN: Thursday, March 18, 2010
- Seminars will be from 11:00am to 1:00pm
- Mr. Zatkulak will be available for media interviews before or after seminars. Please schedule interviews with the HBASE (361-8322).

WHERE: Southeast Technical Institute in the Health Science Center Room 257
2320 North Career Avenue, Sioux Falls, SD

COST: \$10 fee to attend seminars and lunch
(*FREE for media representatives*)

ABOUT THE SPEAKER:

Mr. Zatkulak has a BS in Chemical Engineering from Purdue University and has over 35 years of DuPont technical experience, most recently with product development in the construction industry.

Mr. Zatkulak has several patents and patent applications in addition to fundamental field testing of products and product concepts. He has tested products in over 50 new and redesigned residential construction projects with state-of-art remote temperature and humidity sensors. He has presented research papers at international conferences in the United States and Europe.

Mr. Zatkulak's contributions have led to significant advancements in building science technology in Europe and the United States. For the past several years he has been the "go-to" technical person at DuPont™ for managing radiant heat transfer in residential and commercial buildings.

###

The Home Builders Association of the Sioux Empire is a non-profit, trade organization comprised of over 675 members associated with the building and remodeling industry. We promote homeownership, quality, affordable housing and positive relationships between members and potential and present homeowners.
