## **Chuck Wiseman to Serve as President of the 2012 Home Builders Association of the Sioux Empire**

**SIOUX FALLS, SD (DECEMBER 30, 2011)** - - - Chuck Wiseman, President of Complete Contracting, will serve as the 2012 President of the Home Builders Association of the Sioux Empire (HBASE) from January 1, 2012 to December 31, 2012. Chuck succeeds Alan Amdahl, Alan Amdahl Construction Co., Inc., as leader of the association.

“Chuck’s leadership will bring a fresh perspective to the association,” says Julie Terrell, Executive Vice-President of the Home Builders Association of the Sioux Empire. “His passion for homebuilding and enthusiasm to make a difference will be great assets as he leads the association in 2012.”

Chuck's favorite part about being a member of HBASE is being able to meet with all the builders and associate members. He and his wife, Megan, both play a very active and positive role in the HBASE through their committee leadership and volunteerism. They were named the 2010 Volunteers of the Year.

Chuck has two daughters and one son. In his spare time he enjoys golfing, snowmobiling and spending time with his family. His secret to success is making great relationships with homeowners as well as working together with suppliers and sub-contractors. His motto is, "Build homes as you would expect them to be built for yourself."

The Home Builders Association of the Sioux Empire is a non-profit, trade organization comprising more than 700 members associated with the building and remodeling industry. The association promotes homeownership, quality, affordable housing and positive relationships between members and potential and present homeowners.
